

KONSTANTIN BABADZHANYAN

Corporate Strategy / Transformation / EBITDA Impact

Moscow, Russia / +7 905 550-09-58 / babadzhanyan.k.s@gmail.com / linkedin.com/in/konstantin-babadzhanyan

I take strategy through to execution with measurable EBITDA and revenue impact. Ran a national operator's transformation office as CEO-1, defending a 5-year, 3x-EBITDA diversification strategy to the Board and the Minister of Transport. 20+ projects across 7 industries, teams of up to 10 and a commercial transformation touching 70+ people at Yandex. McKinsey-trained (McKinsey CIS and Yakov & Partners – ex-McKinsey CIS)

PROFESSIONAL EXPERIENCE

Independent Strategy & M&A Consultant / Independent practice

Sep 2025 – Present

Buy-side M&A and operational-efficiency practice; projects alongside ex-McKinsey partners and ex-BCG / ex-Bain / ex-EY / ex-Strategy Partners teams

- With former McKinsey partners, developed shareholder-approved 5-year corporate, GTM and functional strategies for a B2B SaaS company (~700 employees; AI-native pivot, \$24M to \$120M by 2030); ran an AI benchmark (AI-native vs AI-enabled) and built a speech-analytics MVP from scratch (10,000 calls, +10–15 ppt conversion potential)
- Buy-side deal on a distressed dairy asset (FMCG, ~\$16M EV): led the commercial due diligence, built the LBO, bank credit and operating models including the NPV of consolidation synergies; alongside an ex-BCG Engagement Manager drove the thesis through the investment and credit committees (approved)
- Led the commercial due diligence and built the scenario financial model and buy-side valuation for the acquisition of a controlling 50%+1 stake (earn-out structure) in a leading FMCG cosmetics brand (~\$25M EV): DCF and trading-multiples valuation, normalized earnings
- Ran a full-cycle sell-side deal for a consumer brand (~\$2M EV): sourced and secured a strategic investor, negotiated deal terms with the owner and the investor, drove legal documentation (NDA, term sheet, SHA, SPA) through to closing
- With ex-EY and ex-Bain operational-excellence boutiques (team of 3 FTE), ran 10+ engagements (real estate, industrials, finance incl. a top-3 Russian bank) with 10–30% identified impact potential: an FTE headcount-driver model across 7 functions for Russia's #1 developer, an economic-impact assessment of Lean Construction for Russia's #1 bank, an HSE workforce strategy + digital-transformation roadmap for a pulp & paper group, and a new service model unlocking \$5M+ annual savings

Director of Transformation Office / JSC GLONASS

Sep 2024 – Sep 2025

National telematics operator (aerospace, telecom, deep-tech). CEO-1, reported directly to the CEO; led a transformation office of 5, up to 10 with the ventures workstream; ran 4 strategy sessions with top management

- As CEO-1, built the Transformation Office (5 direct reports); developed and defended a 5-year corporate diversification strategy (multi-product pivot) to the Board and the Minister of Transport – 4 strategy sessions (2 months of preparation, weekend format, middle + top management, surfacing and resolving corporate conflicts); target 3x EBITDA over 5 years
- Brought 3 new ventures to the investment committee; venture portfolio included satellite communications (target revenue \$80M+), UAV monitoring, high-precision navigation and autonomous agricultural machinery, and B2B logistics-services brokerage; prepared the investment cases for the IC after taking over from the head of the venture studio
- Implemented, alongside the HRD, a quarterly performance-based incentive system covering 500 employees, saving ~\$1M/year
- Drove business development: built commercial proposals for the India and Africa markets

Project Manager (commercial transformation) / Yandex Ads

May 2023 – Jun 2024

In-house consulting, ex-McKinsey team. Unit with \$1.2B annual revenue. 12-month mandate: ran business development projects across a cross-functional mid-market sales transformation (70+ people) through to implementation

- Led change in the commercial department (core team of 10, program touched 70) following a nationwide audit: sales-efficiency strategy, -10 ppt non-core time, +\$30M/year revenue (+2.5%)
- Restructured client bases by industry and e-commerce, reworked portfolios and launched training programs – rollout co-developed with 6 team leads and 36 sales managers; +5% segment revenue (~\$60M/year)
- Boosted media-ad sales by \$2.8M/year through analytics and regular performance reviews
- Ran sprint programs for the top 60 key clients in partner-marketing development; impact validated against a control group: 130% plan attainment vs 115%
- Introduced a new demand-forecasting process, improving planning accuracy by 13 ppt

Business Analyst / Yakov & Partners (ex-McKinsey CIS)

Jul 2022 – Feb 2023

On-site at the client's steelmaking plant in the Urals (\$1B+ revenue); up to 2 direct reports

- On a \$1B steelmaking asset, ran an end-to-end operational-excellence project from baseline: PMO, short-interval control boards, production-driver system (KPI), daily shareholder reporting, 3 idea-generation sessions; +100k tonnes (+10%) annual run-rate and ~+\$3M confirmed profit
- Designed and ran Russia-wide B2C market research on fresh-produce demand (research design + analyst role), supplemented with a farm-produce supply-chain study (China, Poland); identified an operating model with +10pp margin upside
- Ran Excel training for new hires

Business Analyst Intern / McKinsey & Company, CIS

May 2021 – Jun 2022

8 projects across 6 industries (technology, banking, public sector, transport, energy, industrials) in Russia, Uzbekistan and a Middle East country

- Built a KPI cascade / performance-management model (22 verticals) for a leading Uzbek bank (\$120M+ revenue): Excel models, plan-vs-actual reporting for the C-suite
- Developed a sustainable-development strategy for a UAE emirate
- Contributed to a multi-month transport-system strategy engagement (Ministry of Transport as the client): Moscow-region connectivity, an on-demand dynamic-route shuttle pilot
- Benchmarked international best practice for the entertainment (VoD) industry
- Benchmarked international best practice for QSR (customer experience at the point of purchase)
- Prepared strategy sessions, designed and re-engineered business processes, and ran data analytics across client engagements
- For a coal business: prepared a strategy session and assessed vehicle-fleet utilization efficiency

Freelance Financial Modeling & Valuation

2019 – 2021

Pre-consulting freelance work alongside BMSTU studies: financial and business-process modeling

- Built flexible financial models for a development project (~\$10M investment) and a warehouse-sublease project, plus DCF/valuation models for commercial real estate; advised on a hotel sale transaction (Sochi) incl. construction-cost valuation for private investors
- Built BI dashboards (Power BI) – incl. a real-time BI reporting system for the holding behind Kazakhstan's #1 newspaper (~\$8M revenue: sales analytics, KPI tracking, segmentation) and for a bakery distributor; built product sales funnels and marketing-analytics systems for e-commerce and startups (incl. a product funnel for a mos.ru project)
- Raised \$0.5M for a DeFi project (USA); trained 300+ analysts at a top-4 telecom operator; ran 50+ product-discovery interviews; set up a taxi fleet for an entrepreneur end-to-end: driver-incentive system, unit economics, app
