Konstantin Babadzhanyan

Strategy, transformation and business development

@kostya_younker | babadzhanyan.k.s@gmail.com | Portfolio | +7 905 550-09-58

Independent management consultant and transformation leader with experience at McKinsey, Yakov & Partners and Yandex. Built the GLONASS transformation office reporting to the CEO

Expertise: Strategy, operational efficiency, corporate finance and transactions

Independent practice

Management consultant and project portfolio lead — May 2024 – present

Direct client and partner projects. Primary occupation since Sep 2025, previously alongside employment

Growth strategy

- Developed an IT company's strategy with former McKinsey partners. **Shareholders approved** a $120m revenue target by 2030 from a $24m base
- Benchmarked accounting-service tariffs for an IT company. For an agribusiness group, designed and presented a Russia-wide price-monitoring demo: **109 register records** and a data-selection method

Transactions and investments

- **Closed the sale** of a clothing brand for its owner: sourced an investor and agreed terms and contracts. Business value: ~$2m
- Built the commercial case and LBO, credit and operating models for a dairy business valued at ~$16m. The investment and credit committees approved the case
- Evaluated a proposed controlling-stake acquisition (50%+1) in a cosmetics business valued at ~$25m: commercial due diligence, scenarios and normalised earnings

Digital solutions

- With project partner RocketTech, lead one client account and ~5 projects worth ~$500k in total. Own **delivery P&L** and upselling. Lead 13 developers plus consultants
- Deliver hands-on consulting and implementation. Initial reporting components accepted. With the team, released an AI tool that drafts 1C item cards. User acceptance continues
- Built a speech-analytics prototype: 10,000 calls, 7 reasons for rejection
- Built an AI-assisted BI hiring process in a week: **~30 candidates**, a practical task and a 36-criterion rubric

Operational efficiency

- Built a workforce model for 7 property-developer functions: 10–30% staffing optimisation potential. Led up to 3 colleagues. 10+ efficiency projects overall

JSC GLONASS

Head of Transformation Office — Sep 2024 – Sep 2025

Strategy, new ventures and change reporting to the CEO. 5 direct reports

- **Built the transformation office**, ran 4 strategy workshops and defended a five-year diversification strategy before the Board and Minister of Transport. Strategy target: 3x EBITDA
- Built business cases for 3 new ventures and took them to the investment committee
- With HR, implemented quarterly incentives for 500 staff. Estimated annual payroll savings: ~$1m

Yandex Ads

Commercial transformation project manager — May 2023 – Jun 2024

Mandate: in-house consulting and commercial change – planning, client portfolios and sales efficiency. Scope: 70+ employees

- Increased the department's display-advertising sales by **$2.8m per year** through sales analytics and regular performance reviews
- Ran client-business sprints with 60 sales managers: participating clients achieved **130% of plan versus 115%** in the comparison group
- Restructured sector and e-commerce client portfolios and launched sales training. Team result: 5% segment-revenue growth
- Designed a sales-efficiency programme for 70+ staff based on a time audit. Estimated potential: $30m annual revenue and 10 pp less non-selling time

Yakov & Partners

Business analyst — Jul 2022 – Feb 2023

Two workstreams: production efficiency and agribusiness strategy. $1bn+ revenue steel asset. Supervised up to 2 colleagues

- Implemented a project management office, production-driver metrics and daily shareholder reporting. **Team result: +100,000 tonnes (+10%)** in annual production run-rate
- Designed a Russia-wide produce-demand study and mapped supply chains in China and Poland. Built a distribution model with a 10 percentage-point margin-improvement potential

McKinsey & Company

Business analyst intern — May 2021 – Jun 2022

Models and research in consulting project teams. 8 projects across 6 industries in Russia, Uzbekistan and the Middle East

- Built a performance-management model for an Uzbek bank with $120m+ revenue: targets across 22 business lines and plan-versus-actual reporting for management
- Developed a UAE emirate's sustainability strategy and Moscow-region connectivity options for the Ministry of Transport in project teams. Benchmarked international video services

Earlier independent projects

Financial models, analytics and business development — 2019–2024

- Built financial models for property development (about $10m investment) and warehouse subleasing. Estimated hotel construction costs in Sochi for private investors
- Built Power BI reporting for a media business and distributor and e-commerce sales funnels. Trained **300+ analysts** at a top-four telecom operator

Education

- Bauman Moscow State Technical University, Specialist degree, Mechanical Engineering, 2022
- School of Finance – corporate finance and investment banking: financial modelling, business valuation and deal structuring

Tools

Excel, Power BI, SQL, Python, PowerPoint, think-cell

Languages

English: professional working proficiency. Russian: native
