Konstantin Babadzhanyan

Strategy, transformation and business development

@kostya_younker | babadzhanyan.k.s@gmail.com | Portfolio | +7 905 550-09-58

Management consultant and transformation leader with experience at McKinsey, Yakov & Partners and Yandex. Built the GLONASS transformation office reporting to the CEO. Lead the RocketTech portfolio with 13 developers plus a consulting team

Expertise: Growth strategy, operational efficiency, financial modelling and transactions, market research, performance management, team leadership

Independent practice

Strategy and transformation project lead — May 2024 – present

Primary occupation since September 2025. Parallel practice in 2024–2025

Growth strategy

- Developed an IT company's growth strategy with former McKinsey partners. **Shareholders approved the plan**: a $120m revenue target by 2030 from a $24m base

Transactions and investments

- **Closed the sale** of a clothing brand for its owner: sourced an investor and agreed terms and contracts. Business value was approximately $2m
- Built the financial model and commercial case for acquiring a dairy business valued at about $16m. Approved by investment and credit committees

Digital solutions

- Lead RocketTech's IT strategy, analytics and automation portfolio with **13 developers** and a consulting team. Initial financial, HR and veterinary reporting components accepted
- Released the main version of an AI-assisted 1C item-card drafting tool with the team. Deployed to the live environment, with user acceptance ongoing

Operational efficiency

- Built a workforce model for 7 functions at a real-estate developer, identifying 10–30% staffing optimisation potential. Led a team of up to 3. 10+ efficiency projects overall

JSC GLONASS

Head of Transformation Office — Sep 2024 – Sep 2025

Telematics operator. Reported directly to the CEO. 5 direct reports

- **Built the transformation office** and defended a five-year diversification strategy before the Board and the Minister of Transport. Facilitated 4 strategy workshops
- Led new-business development: assessed demand, built financial models and submitted 3 projects to the investment committee
- Implemented quarterly incentives with the HR director for 500 employees. Estimated annual payroll savings were approximately $1m

Yandex Ads

Commercial transformation project manager — May 2023 – Jun 2024

In-house consulting and commercial change. Programme covering 70+ employees

- Increased the department's display-advertising sales by **$2.8m per year** through plan-versus-actual analysis
- Ran client-business sprints with 60 sales managers: participating clients achieved **130% of plan versus 115%** in the comparison group
- Restructured sector and e-commerce client portfolios and launched sales training. Team result: 5% segment-revenue growth
- Designed a sales-efficiency programme for 70+ staff based on a time audit. Estimated potential: $30m annual revenue and 10 pp less non-selling time

Yakov & Partners

Business analyst — Jul 2022 – Feb 2023

Metals and agribusiness. $1bn+ revenue steel asset. Supervised up to 2 colleagues

- Implemented a project management office, production-driver metrics and daily shareholder reporting. **Team result: +100,000 tonnes (+10%)** in annual production run-rate
- Designed a Russia-wide demand study and mapped supply chains in China and Poland. Built a distribution model with a 10 percentage-point margin-improvement potential

McKinsey & Company

Business analyst intern — May 2021 – Jun 2022

8 projects across 6 industries. Russia, Uzbekistan and the Middle East

- Built a performance-management model for an Uzbek bank with $120m+ revenue: targets across 22 business lines and plan-versus-actual reporting for management
- Developed a UAE emirate's sustainability strategy and transport-strategy options in project teams. Benchmarked international video services

Earlier independent projects

Financial models, analytics and business development — 2019–2024

- Built financial models for property development (about $10m investment) and warehouse subleasing. Valued hotel construction in Sochi for investors
- Built Power BI reporting for a media business and distributor and e-commerce sales funnels. Trained **300+ analysts** at a top-four telecom operator

Education

- Bauman Moscow State Technical University, Specialist degree, Mechanical Engineering, 2022
- School of Finance – corporate finance and investment banking: financial modelling, business valuation and deal structuring

Tools

Excel, Power BI, SQL, Python, PowerPoint, think-cell
