Konstantin Babadzhanyan

Strategy, transformation and business development

@kostya_younker | babadzhanyan.k.s@gmail.com | Portfolio | +7 905 550-09-58

Independent management consultant and transformation leader with experience at McKinsey, Yakov & Partners and Yandex. Built the GLONASS transformation office reporting to the CEO

Expertise: Strategy, operational efficiency, corporate finance and transactions

Independent practice

Management consultant and project portfolio lead — May 2024 – present

Direct client and partner projects. Primary occupation since Sep 2025, previously alongside employment

Growth strategy

- Developed an IT company's strategy with former McKinsey partners. **Shareholders approved** a $120m revenue target by 2030 from a $24m base. Built a speech-analytics prototype: 10,000 calls, 7 reasons for rejection

Transactions and investments

- **Closed the sale** of a clothing brand for its owner: sourced an investor and agreed terms and contracts. Business value was approximately $2m
- Built the LBO, credit and operating models and commercial case for acquiring a dairy business valued at about $16m. The investment and credit committees approved the case
- Evaluated the proposed acquisition of a controlling stake (50%+1) in a cosmetics business valued at about $25m: commercial due diligence, scenario modelling and normalised earnings

Digital solutions

- Lead one client account and its project portfolio with RocketTech: ~5 projects with a total value of ~$500k. Own **delivery P&L**, the upsell pipeline and a team of 13 developers plus consultants
- Deliver hands-on consulting and project work. Initial finance, HR and veterinary reporting components accepted. Released an AI-assisted 1C item-card drafting tool with the team. User acceptance is ongoing

Operational efficiency

- Built a workforce model for 7 functions at a property developer, identifying 10–30% staffing optimisation potential. Led a team of up to 3. 10+ efficiency projects overall

JSC GLONASS

Head of Transformation Office — Sep 2024 – Sep 2025

Strategy, new ventures and change reporting to the CEO. 5 direct reports

- **Built the transformation office**, ran 4 strategy workshops and defended a five-year diversification strategy before the Board and the Minister of Transport. Strategy target: 3x earnings before interest, tax, depreciation and amortisation (EBITDA)
- Led new-business development: assessed demand, built financial models and took 3 projects to the investment committee
- Implemented quarterly incentives with the HR director for 500 employees. Estimated annual payroll savings were approximately $1m

Yandex Ads

Commercial transformation project manager — May 2023 – Jun 2024

Mandate: in-house consulting and commercial change – planning, client portfolios and sales efficiency. Scope: 70+ employees

- Increased the department's display-advertising sales by **$2.8m per year** through sales analytics and regular performance reviews
- Ran client-business sprints with 60 sales managers: participating clients achieved **130% of plan versus 115%** in the comparison group
- Restructured sector and e-commerce client portfolios and launched sales training. Team result: 5% segment-revenue growth
- Designed a sales-efficiency programme for 70+ staff based on a time audit. Estimated potential: $30m annual revenue and 10 pp less non-selling time

Yakov & Partners

Business analyst — Jul 2022 – Feb 2023

Two workstreams: production efficiency and agribusiness strategy. $1bn+ revenue steel asset. Supervised up to 2 colleagues

- Implemented a project management office, production-driver metrics and daily shareholder reporting. **Team result: +100,000 tonnes (+10%)** in annual production run-rate
- Designed a Russia-wide produce-demand study and mapped supply chains in China and Poland. Built a distribution model with a 10 percentage-point margin-improvement potential

McKinsey & Company

Business analyst intern — May 2021 – Jun 2022

Models and research in consulting project teams. 8 projects across 6 industries in Russia, Uzbekistan and the Middle East

- Built a performance-management model for an Uzbek bank with $120m+ revenue: targets across 22 business lines and plan-versus-actual reporting for management
- Developed a UAE emirate's sustainability strategy and Moscow-region connectivity options for the Ministry of Transport in project teams. Benchmarked international video services

Earlier independent projects

Financial models, analytics and business development — 2019–2024

- Built financial models for property development (about $10m investment) and warehouse subleasing. Estimated hotel construction costs in Sochi for private investors
- Built Power BI reporting for a media business and distributor and e-commerce sales funnels. Trained **300+ analysts** at a top-four telecom operator

Education

- Bauman Moscow State Technical University, Specialist degree, Mechanical Engineering, 2022
- School of Finance – corporate finance and investment banking: financial modelling, business valuation and deal structuring

Tools

Excel, Power BI, SQL, Python, PowerPoint, think-cell
